

What is BCeID?

Following sections cover BCeID and its features

BC Electronic Identity (BCeID)

1. Introduction

BC Electronic Identity (BCeID) is a secure online authentication service provided by the Government of British Columbia (BC), Canada. It enables individuals and businesses to access a wide range of participating provincial government services using a single set of login credentials.

2. Types of BCeID Accounts

BCeID provides different account types depending on user needs:

- Basic BCeID – For individuals accessing services that do not require business verification.
- Business BCeID – For organizations such as companies, partnerships, and non-profits.
- (Note: Personal BCeID has been retired.)

3. How BCeID Works

1. Register online by selecting the appropriate account type.
2. Complete identity verification if required (especially for Business accounts).
3. Use your username and password to log in to participating government services.

4. Key Benefits

- Single Credential Access – One login for multiple services.
- Secure Authentication – Government-managed security standards.
- Privacy Protection – Operates under BC government privacy policies.
- Wide Adoption – Used by many provincial government services.

5. Support Information

For assistance with login issues, password resets, or account management:

Service BC Help Desk

Toll-free (Canada & USA): 1-888-356-2741

Local: 604-660-2355
